

This is the second volume of selections of Carole's best writing ... some under the category of Ranting, Raving & Random Thinking, some classified as Digestable Bytes to Beat the Blahs and a whole lot more stories to leaving you smiling. Like the Canadian Best-Selling Volume One, you will continue to be both enlightened and entertained by her honesty, humility and humour. The combination is a definite recipe for success to 'moodivate' you. Although CBL likes to warn that there is a 'no sharing' policy on the book, go ahead and enjoy it with all of your friends.

A mood-ivational speaker... to tickle your funny bone ~!!~

Carole stills lives in her crowded bungalow in Oakville with Joe and their three not yet launched, but fully grown and almost matured children. It will be an endurance test to see who will linger the longest ... the parents or the kids. Although their home is filled with lots of junk, there is also an abundance of love, laughter and loud talking.
